

Drawing B-1019

Direction of laying of insulated panel

Mechanical fixing scheme

- ① Mechanical fixing system with metal plates (or washer) and wall plug, concrete screws and timber screws.
Minimum fixation: 4 pcs/element *
- ② Insulation panel

NOTE:

The scheme in the drawing is indicative.

The calculation of the mechanical fixing must be done by the designer, and he must consider various factors, for example:

- Site of the roofing
- Windiness of the area
- Height of the roof
- etc...
